

Introducing the Garador side-hinged garage door

Garador's side-hinged garage doors have been engineered with an intuitively simple and easy-to-use design. They are ideal for garages where frequent access is required to store and retrieve larger items such as bicycles or garden tools. A lever handle is used to operate the door and both door leafs open outwards providing clear and unrestricted space within the garage.

Choose from an extensive selection of standard and made-to-measure door sizes. Three different materials are on offer to suit your garage's individual requirements, these are: steel, timber or grp (glass reinforced polyester). Each material comes in a variety of designs and colours to suit. We also offer a range of matching garage side doors.

Modern appearance, classic steel design

Our steel side-hinged garage doors have a classic appearance that blends in with most homes. Choose from a range of traditional Georgian designs and more modern swage or wide profiled models.

Gloss White and timber effect GRP finishes

Our GRP timber-effect side-hinged doors have a woodgrain surface finish that imitates the texture of real wood. The Arden and Arden with windows come in a tasteful, resilient white gloss finish for a smooth and stylish finish.

Quality craftsmanship and exquisite timber designs

Our timber side-hinged garage doors combine quality craftsmanship with the exquisite beauty of real wood. We use the finest materials to build a door that will last for many years to come. Choose from Solid Cedar designs, constructed from Western Red Cedar, or Elizabethan ranges built from marine grade plywood and solid cedar.

Steel and timber garage side doors

To further enhance the appearance of your garage we can now provide a side door to match many of our Up & Over designs. These doors are produced in much the same way as our Up & Over doors, showing the same details and finished in exactly the same colour to provide a perfect match.

Robust and reliable performance

Our side-hinged garage doors have been designed to provide years of reliable use and excellent security. A 75 mm wide galvanised steel door frame gives a strong and stable door construction. The hinges are concealed in the frame reducing their vulnerability to burglars and providing a seamless appearance across the surface of the door, as there are no hinge knuckles protruding.

2

Two-point locking for security

Door stays and dampeners

Sturdy weatherproof rubber seals all round

Aluminium threshold

3-way adjustable hinges allow the door position to be precisely adjusted for a smooth door action and a tight close against the rubber seal.
