

INTRODUCTION

Polyester powder coating is a surface finish applied to shutters and retractable gates in a solid, powder form after careful pre-treatment of the surface. The coating is fused by heat to produce a continuous film and curing of the coating gives its design properties. The result is a high performance finish that delivers exceptional corrosion protection, durability and resistance to yellowing making it suitable for both interior and exterior use. The process is virtually emission free, so is environmentally friendly.

Features

- Typically 60-80 Microns coating thickness
- Excellent corrosion protection
- Superior colour stability
- Tough yet highly flexible

Extruded profiles and the aluminium shutter box profiles are powder coated in a satin finish (unless stated otherwise).

Gloss levels

Gloss (80% +/-5%): A highly reflective smooth surface. Gloss surfaces due to their highly reflective appearance tend to highlight surface imperfections.

Satin (65% +/-5%): A satin finish is not as reflective as the gloss finish and because of this is less likely to show any surface imperfections. Satin finishes also provide a good surface for cleaning and resisting abrasion. **Unless stated otherwise this is the standard finish supplied.**

Matt (30% +/-5%): A matt finish due to the low gloss level is very good at concealing surface imperfections. Due to the textured finish the surface is more difficult to clean than a surface with a higher gloss level.

TOUCH-UP PAINT

For repairing minor blemishes to the finish surface touch-up paint is available

Touch-up pen **Code: PC006P1**
Touch-up spray can (400ml) **Code: YPC101P0**

SeceuroVision 3800	✓	✓	✓	-	-
SeceuroShield 3801	✓	✓	✓	-	-
SeceuroShield 6000	✓	✓	-	-	-
SeceuroShield 7500	✓	✓	-	-	-
SeceuroVision 8000	✓	✓	-	-	-
SeceuroVision 9000	-	-	-	-	✓

SeceuroVision 9000 supplied with a silver anodised bottom slat unless requested otherwise

References quoted are the **nearest** standard RAL or BS references to the colours used. They will **not** be an exact match and are intended as a guide only.

Please note: the colours illustrated on this page are intended as a guide only.

Reference should be made to an appropriate RAL or BS chart prior to ordering. Other RAL or BS colours are available, please ask for details.

Please note: other non stock RAL / BS colours are available but will attract a minimum surcharge (nett) of £218 per order. This surcharge will not apply to gate orders with a nett order value of £4000 or more and shutter orders with a nett powder coating surcharge of £1000 or more. Quotes and lead times for non stock colours must be requested.

***Please note these colours are now supplied in a Gloss finish as standard.**
