

## STRENGTH & SECURITY

Every door is built onto a steel chassis that provides a neat edge to the door panels and gives the door strength and rigidity. The chassis is available in white, brown or black (frames are also available to match). Side hinged doors have a black lever handle that operates a locking latch to the active leaf, whilst the inactive leaf is secured by a shoot latch bolt.

The rear face of the Platinum side hinged doors is white as standard or brown as an optional extra, with the chassis in white, brown or black.

Chassis corner details in each of the colour options.

### \*Chassis Colour:

White doors will come on a white chassis, ebony woodgrain doors on black chassis and all other woodgrain colours on brown chassis. Red, Green and Blue colours and Coastal colours on a white or black chassis.

## GENERAL INFORMATION

- HANDLE POSITIONS** The handle will be positioned approximately central to the active door leaf edge, this may vary dependent on door style and/or door feature position.
- GLAZED G.R.P. DOORS** All window design doors are fitted with standard black opaque windows, which cannot be seen through. Clear and stippled translucent windows are available as options on all these doors.
- END STILES** Width of end stiles will vary between doors of the same style of different widths - see our website for further details and calculations.
- PHOTOGRAPHY** All door images in this publication are of 7'0" x 7'0" (2134mm x 2134mm) sized single doors.
- COLOURS** Colours shown in this publication are for guidance only. For accurate colours please request to see a current sample.
- TRANSLUCENCY** Translucency of the door panel may vary when viewed from the inside on a bright day due to variations in laminate thickness. This does not represent a manufacturing defect and overall performance is not affected.

## PLATINUM GRP GARAGE DOORS

Wessex Doors is Europe's largest manufacturer of low maintenance GRP (Glass Reinforced Polyester) garage doors and a leading innovator in the field of garage door design.

The Platinum Range of side-hinged garage doors meets the increasing demand for a comprehensive range of budget-conscious doors for retail and trade customers.

GRP is an incredibly strong, dent resistant modern composite laminate with a better strength to weight ratio than steel. The door face is devoid of joints, seams, rivets or fastenings to detract from its good looks. All doors are supplied fully finished, won't warp, shrink or rust and are virtually maintenance free. Doors are built onto a strong, corrosion protected steel chassis that provides a protective "picture frame" edge all around the door panel.

For details of additional ranges available from Wessex Doors please see our main Range Guide or visit [www.wessexdoors.co.uk](http://www.wessexdoors.co.uk).

## MORE LIKE WOOD THAN WOOD!

Wessex uses the finest softwood timber masters to create moulds with enhanced grain and detailing that no exterior grade timber can match. Our Platinum range of side-hinged doors look just like wood but with the added benefit of minimal maintenance!

## FINISHED TO PERFECTION

Hand finished by craftsmen, woodgrain doors are "antiqued" to reproduce the natural subtlety of timber.

## GRP - A UNIQUE MATERIAL

Not only is G.R.P. tough, it is also excellent at resisting the ravages of the weather, even in coastal locations.

The corrosive effects of salt laden air can be easily seen in rusting gates, door hinges and garage doors. G.R.P. eliminates corrosion and the benefits inland are just as convincing - minimal maintenance! G.R.P. is the material of choice for the sailing industry!

Make G.R.P. your choice for a new garage door...
