High impact.
Low maintenance.

markilux 3300
 Can an awning be merged visually into the architecture of a house? The markilux 3300 proves that it can. Depending on the structural situation, this designer awning, with its smooth front profile, disappears completely into a wall or precisely into a recess. When extended, it comes into its own with dimensions of up to 700 x 400 cm. And you can shade even larger areas by coupling up to three single awnings together. Discover how practical the markilux 3300 can be, and make this awning a big hit in your home.
