Awning System

markilux pergola

Exceptional sun and wet weather protection for large areas.

markilux.com

markilux
safe timeless beautiful

01 Product characteristics

Wind resistance class 3

Beaufort 6 → 38–48 km/h → 10.5–13.4 m/s → 24–30 mph

1 version with square or round support posts

2 Adjustable post ¹⁾ manual or motor operation

3 drop valance, during extension ¹⁾

4 solar module sundrive, radio-controlled drop valance operation ¹⁾

LED line in the guide track and cover support tube ¹⁾

combination of LED-Line and LED-Spots ¹⁾

post with stabilisation box ¹⁾

5 standard footplate covers

6 wall sealing profile ¹⁾

¹⁾ optional configuration

Product characteristics

Description

- The awning system on slender posts and with lateral guide tracks provides generous shade with an extension of up to 6 metres and for areas up to 30 m² with a single unit. Thanks to the tracfix cover guidance system, the sophisticated tensioning technology and its sturdy construction, the system can be used up to Beaufort 6 (wind resistance class 3).

Special features

- fully encompassing cassette that protects the cover perfectly
- the tried and tested tensioning system – with drive belts and integrated gas pistons – delivers optimum cover tension in any phase of extension
- with tracfix system, the continuous lateral cover guidance system that leaves no gap between the cover and guide tracks
- option of shadeplus – vertical protection against low-lying sun, wind and inquisitive glances integrated into the front profile, can be operated manually or solar driven by radio remote control (433 MHz)
- various lighting combinations available: light strip LED-Line in the guide tracks, LED-Line in the cover support tube or LED-Spots fitted to the cover support tube – individually configurable lighting options providing a pleasant atmosphere in the evening
- an optional telescopic post, manual or motor operation, ensures optimised water drainage during rain, even at a low minimum pitch of 7°
- support posts optionally with round or square shaped profiles, incl. screw-on footplates or stabilisation boxes for flexible installation
- can be combined perfectly with the awning systems markilux construct, markilux syncra, vertical blinds markilux 876 tracfix, markilux 776 tracfix, side screen markilux 790

Dimensions

- single unit: 67–600 cm in width, maximum extension 600 cm (depending on the width)
- maximum dimensions width × extension: 500 × 600 cm / 550 × 500 cm / 600 × 450 cm
- coupled units up to 5 fields wide are available
- intermediate sizes are available

Roller tube and lateral bearings

- round roller tube Ø 95 mm with keyway, galvanised steel – excellent stability, ensures near perfect cover performance even at the largest widths
- the roller tube bearing is made of die-cast aluminium

Awning profiles

- extruded aluminium, in façade quality, powder coated
- cassette profile in two pieces, round, Ø 187 mm
- angular guide tracks, width × height 60 mm × 70 mm (coupling guide track 116 × 70 mm)
- front profile rounded at the front, depth × height 150 mm × 70 mm

Side caps

- the cassette end caps with opening for guide tracks are made of die-cast aluminium, powder coated
- the top maintenance cover is made of high-quality plastic, powder coated
- the front profile end caps are made of high-quality plastic, powder coated

Fixture brackets and support posts

- extruded aluminium, powder coated
- cassette brackets: face fixture, top fixture, eaves fixture
- support post round Ø 70 mm or square 70 × 70 mm, standard height 250 cm, heights up to 300 cm are available
- screw-on footplate 200 × 200 mm
- footplate cover 212 × 212 mm in one piece, height 48 mm, is made of die-cast aluminium, rounded corners
- a version of the support posts with optional stabilisation box 600 × 600 mm, height 525 mm, for versatile installation is available

N.B! For additional information and configuration options, please view chapter “General Information” and “markilux Optional Accessories” in the volume “Design blinds for windows | Glass roof awnings”.

01 Frame colours

markilux frame colours without surcharge

traffic white, RAL 9016

metallic aluminium, RAL 9006

grey brown, similar to RAL 8019

off-white textured finish, 5233 ¹⁾

stone grey metallic, 5215 ¹⁾

anthracite metallic, 5204 ¹⁾

Havana brown textured finish, 5229 ¹⁾

Non-standard powder-coated finish

Bespoke frame colours at a surcharge – matt, metallic and pearl finishes as well as other colour ranges (DB, Tiger etc.) on request. All frame colours are available at a surcharge with enhanced corrosion protection.

Colours may differ slightly from those depicted in both hue and finish.

1) textured finish

Operation

	standard	optional
manual operation	—	—
hard-wired motor	✓	—
silentec motor (optionally with an external io / RTS receiver) ¹⁾	—	✓
radio-controlled motor io, 868 MHz	—	✓
radio-controlled motor RTS, 433 MHz	—	✓

1) only available for awnings with 1 field and 2 fields, 2 motors

Awning cover	Fabric pattern no.	Standard	Optional
sunvas ^{1) 6)}	301.. / 309..–315..	✓	—
perla ^{1) 5)}	370 ..	—	✓
sunsilk ^{1) 6)}	324.. / 325.. / 328.. / 369..	✓	—
perla FR ^{1) 5)}	374.. / 375..	—	✓
perfortex ²⁾	331.. / 332..	✓	—
transolair	338.. ³⁾ / 339.. ¹⁾	—	✓
vuscreen Alu	317..	—	—
Soltis Perform 92 ⁴⁾	92-20..	—	✓
Glass fibre screen	272..	—	—

Standard fabric panel widths

1) 60 cm 2) 120 cm 3) 84 cm

4) 88.5 cm 5) Only with tracfix

6) In the case of striped patterns, an even repeat at every second seam in the seam area is not possible.

Coupled awning

2–5 fields, 1 motor per field
Alternatively 2 fields 1 motor / 3 fields 2 motors / 4 fields 2 motors
Maximum size per field: see "single unit" dimensions

General notes

Different field extensions are available in a coupled awning. The rolling up behaviour of the covers may vary in coupled awnings that have different field sizes. This does not effect the functionality of the awning or shorten the service life of the covers.

The option of having telescopic posts in awnings with 3–5 fields is only available on request.

Shadeplus ^{1) 2)}

	Standard	Optional
Height 230 cm (manual operation, winding handle)		
Height 230 cm (motor operation, depending on the fabric series chosen)		
Winding handle	✓	—

Telescopic, motor-driven post

- Minimum post height: 1970 mm
- Motor cable, black
- The LED Line profiles are always fitted to all guide tracks of the markilux pergola to give a harmonious look
- The awning may only be retracted or extended if the front profile is horizontal, in other words, the post must not be in the lowered position.
- The shadeplus (optional) may only be operated when the post is not in the lowered position. It may only be operated when the front profile is horizontal.

Controls

Standard Optional

Hard-wired motor	✓	—
Radio receiver Somfy Slim Plug io (8271254)	—	✓
Radio receiver Universal Slim Receiver RTS Plug (8272148)	—	✓

Technical details Hard-wired motor

Power supply	230 V DC
Power output	110 W
Protection class	IP 44

Y = distance from post centre to leading edge of front profile. Dimensions: min. = 100 mm, max. = 1000 mm dimensions in mm

Overview of fixture dimensions, shadeplus

Magnetic gearbox operation

with magnetic gearbox attachment for manual operation of the drop valance
lengths: standard 120 cm, optional 160 cm, from 160 cm up to max. 280 cm on request
(order no. 74271.)

* = dimension with the awning retracted

Please note!

The shadeplus (optional) may only be operated when the post is not in the lowered position. It may only be operated when the front profile is horizontal.

sundrive

Solar module for radio-controlled drop valance operation

Technical data solar module

voltage	max. 21 V DC
current	max. 196 mA
output	3.2 W
ingress protection rating	IP 44
battery capacity	2200 mAh

Technical data radio-controlled motor 433 MHz

power supply	12 V DC
output	26 W
ingress protection rating	IP 44

dimensions in mm

Dimension overview lighting options

Option 4: LED-Spots in the cover support tube, electronic components in the cover support tube

Option 5: LED-Spots in the cover support tube and LED-Line in the guide tracks,
electronic components in the cover support tube

H = *order dimension* = extension

V = distance from the rear of the cassette to the centre of the cover support tube. Standard: centred ($V = H \div 2$).

Bespoke dimensions are available on request. Dimensions: min. = 700 mm, max. = H – 1590 mm

Y = distance from post centre to leading edge of front profile. Dimensions: min. = 100 mm, max. = 1000 mm dimensions in mm

01 E-box for the electronics

In units without cover support tube

Dimension overview E-box

dimensions in mm

Minimum E-box dimensions

wireless technology

Extension H

RTS (433 MHz)

868 MHz io

< 330 cm

≥ 330 cm

< 330 cm

≥ 330 cm

Lighting options

LED-Line in the Guide tracks

E-box M
71850.
BB = 500 mm

E-box G
71873.
BB = 700 mm

E-box M
71850.
BB = 500 mm

E-box | 71851. BB = to order

** = standard

BB = order width

E-box = in sizes M, G or I

H = *order dimension* = extension

T = indent dimension LED-Line

VB = adjustment range

Y = possible indent dimension of support post

Combination Possibilities

Example with markilux 776 tracfix / 876 tracfix (optionally with panorama window)

vertical cassette blind at the front

vertical cassette blind at the front, support posts with stabilisation boxes

combination with vertical cassette blinds both at the side and at the front

installation of a vertical cassette blind at the side and obligatory cross member between support posts

N.B! A vertical roller blind may only be installed at the side or the front if a stabilizing profile (VP) has been fitted.

Further possible combinations

- markilux 790 at the side (cover optionally with angled top edge)
- markilux 790 at the front between support posts
- pergola fitted to the markilux syncra or markilux construct
- Other possible combinations are available on request.

- 72203.** = post fixture guide track (round support post)
78548. = flat track bracket
78719. = additional angled bracket, bearing / gearbox / motor side
787211 = accessories for two angled brackets
BK = stabilisation boxes (600 × 600 × 525 mm)

- F3** = concrete footing
VP = cross member
● = round post
■ = square post

Overview of fixture dimensions

Reveal fixture of a coupled unit

N.B! In the case of reveal fixture a distance of at least 100 mm must be left free on each side of the awning.

- * = dimensions for rear cable exit on motor side (standard)
- ** = dimensions for bottom cable exit on motor side (optional)
- *** = dimensions for cable duct in case of lighting
- F3** = concrete foundation. Please view section "Concrete foundations"
- HT** = bracket
- KH** = coupling bracket
- M** = overall awning width = MA + 10 cm
- (M)** = operation side, motor drive
- MA** = *order dimension* = awning fixture width = fixture width
- MB** = bracket fixture range

dimensions in mm

01 Overview of fixture dimensions, double track bracket for single units

Motor cable exit point

76734. = support post with double track bracket

BA = width between fixture points

EA = single unit

M = overall awning width = MA + 10 cm

MA = *order dimension* = awning fixture width = fixture width

MB = bracket fixture range

dimensions in mm

Calculation of the approximate fixture height, examples

Example 1: front support posts pushed as far forward as possible, $Y = 100$ mm

ES	=	100
W	=	15°
H	=	6000
WS	=	5800
Y	=	100
SH	=	2500
AHS	=	1620
AH	=	SH + AHS = 2500 + 1620 = 4120

Example 2: front support posts pushed back, $Y \geq 100$ mm and ≤ 1000 mm

ES	=	700
W	=	15°
H	=	6000
WS	=	5200
Y	=	700
HD	=	130
SH	=	2500
AHS	=	1620
AH	=	SH + AHS - HD = 2500 + 1620 - 130 = 3990

ES = centre of support post to the leading edge of the front profile

W = pitch
H = extension

WS = distance from wall ↔ support post

Y = distance front support posts can be moved back

HD = difference to the fixture height

SH = support post height, standard 2500 mm

AHS = fixture height from the top edge of the support post

AH = fixture height

01 Calculation of the approximate fixture height

Drawing template

N.B! An on-line tool to calculate the installation measurements can be found in the protected area of the website, markiluxPRO.
