Products

SeceuroShield 38
Black Finish

Welcome to the SeceuroShield Range of Physical Security Products

SeceuroShield physical security products have been protecting properties since 1985.

Although often overlooked, securing your property provides peace of mind by protecting the things that matter most to you, whether that's your home and family or your business and consequently your livelihood. With so much choice, choosing a security product that most suits your needs can seem like a daunting task, but SeceuroShield industry-leading products address all requirements and are manufactured, supplied and installed by industry experts who are there to offer advice and guidance - from initial enquiry through to installation and after care.

Besides securing your property, many SeceuroShield products offer other benefits such as insulation and sound proofing, vision and ventilation, or increased impact for your business through custom colours that match your brand.

The emphasis behind our range of shutter and gate designs is on integration into your building and way of life; unobtrusive, attractive and easy to use. Proudly manufactured in the UK and installed to complement the look of the building, SeceuroShield products are effective and secure in daily use.

All products are supplied and installed through your local approved distributor who will be able to offer expert guidance and advice to ensure a tailor made solution.

A Name You Can Trust

- ✓ Made to measure for a tailor made security solution
- ✓ Manufactured in the UK
- ✓ CE or UKCA marked – Investing in a CE or UKCA marked product means you are purchasing a product that is fully compliant
- ✓ Designed to integrate security seamlessly into the building
- ✓ Approved LPCB and Secured By Design products available
- ✓ SWS UK is an ISO9001 Certified Company

Versatile Security from SWS UK

"The goal of physical security is to deny unauthorised access to facilities, equipment, and resources, while protecting personnel and property from harm, theft or damage." [Wikipedia](#)

*"Burglaries and physical theft cost UK businesses **£12.9 billion** in 2024."*
[British Home Office](#)

*"Retail crime cost **£4.2 billion** in the UK in 2024."*
[British Retail Consortium](#)

*"Every **76 seconds** a house in Britain is successfully burgled."*
[Office for National Statistics](#)

"Deter, delay, detect, deny. Prevention is ALWAYS better than cure."

Need some guidance?

See our Product Matrix on **Page 8-9** for more information.

Protecting What's Important to You

Retail

Attractive security that integrates with your business and brand.

What I need:

- To protect my premises outside of opening hours by deterring opportunist thieves and vandals
- My products to be visible to potential customers, even when my business is closed
- To protect my premises but the local planning laws have very strict rules on shutters
- A specific corporate colour and brand that I would really like to be seen 24 hours a day

SeceuroShield has a Solution

High street or retail park, independent or chain, crime prevention is a necessary consideration for all retailers. SeceuroShield takes the guesswork out of the security requirements for your premises. Let one of our approved distributors talk you through the options that meet your requirements so you can be safe in the knowledge that your premises are protected.

Retailer Choice

- ✓ LPCB approved and SBD products available
- ✓ Available for both internal and external installation
- ✓ Vision options available
- ✓ Electric or manual
- ✓ Colour coding and branding options
- ✓ Best advice from your local experts

"We need shutters that match our school colours."

Public Sector & Business

It's our business to protect yours.

What I need:

- Security that doesn't look unwelcoming when it's in use
- Protection for high value products at ground floor level
- To be able to operate all shutters from one control
- To be able to darken a room to provide a projected presentation effectively
- The flexibility to lower shutters from my desk to stop glare from the sun on my computer screen
- Shading with shutters that can reduce our use of air conditioning in the summer

SeceuroShield has a Solution

SeceuroShield offers the widest variety of options available in one place, fulfilling your physical security needs without compromise. A professional survey by one of our approved local distributors will allow them to assess your specific needs and present the best available options in an easy to understand format.

Public Sector & Business Choice

- ✓ LPCB approved and SBD products available
- ✓ Available for both internal and external installation
- ✓ Electric or manual
- ✓ Insulated Shutters to provide shading
- ✓ One touch control
- ✓ Supplied and installed by your local expert
- ✓ Colour matching for seamless integration

Protecting What's Important to You

"We're not worried about leaving our house during the summer."

Residential

Total peace of mind for you and your family.

What I need:

- To feel secure without compromising the look or style of my property
- Peace of mind that my property is secure when we're away
- Reduced heat loss through windows and doors
- To keep cool in the summer and warm in the winter
- To darken a room at the touch of a button
- To protect fabrics and furnishings from sun damage

According to the Office for National Statistics, an estimated 245,284 domestic burglaries were carried out in England and Wales in 2024/2025.

SecuroShield has a Solution

Our homes are not simply the place in which we live; they are our most precious assets and a haven from the world outside. Research has shown that houses without any form of security are three times as likely to be broken into than homes with security systems. Therefore, protecting our homes has never been more important.

The SecuroShield range of products combines easy operation with high performance to offer numerous options for any home. With a choice of profiles, including insulated slats, extensive colours and even products which can be removed when not in use, security which blends into your lifestyle and the look of your home is more achievable than you may think.

Residential Choice

- ✓ LPCB approved and SBD products available
- ✓ Insulated shutters providing shading and heat retention
- ✓ Electric or manual
- ✓ Seamless integration
- ✓ Touch button control

Hospitality

Convenient protection for you and your staff.

What I need:

- To have a bar area as an operational room outside of licensed hours
- The option to close off a servery counter
- To keep unauthorised personnel away from an area
- A choice between solid or see-through shutters

SecuroShield has a Solution

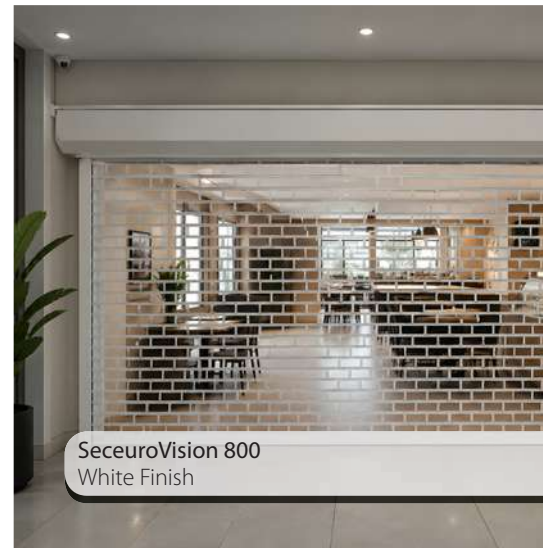

Hotels, restaurants, canteens and kiosks all have areas which need to be quickly and efficiently fenced off or securely locked up outside of opening hours. Keep your products visible as well as secure with our choice of vision shutters and retractable gates, or choose a product with insulation benefits to increase your energy efficiency. With an extensive choice of colours you can choose a product which blends into the corporate look of your business.

Hospitality Choice

- ✓ LPCB approved and SBD products available
- ✓ Full integration into the premises with a choice of colour and vision
- ✓ Insulated slats offering sound reduction
- ✓ Electric or manual operation
- ✓ Remote control options to remove the need for switches easily pressed by unauthorised personnel

Other Applications

Versatile security with SecuroShield.

As well as traditional applications, the SecuroShield range of products has proven to be extremely effective across many other projects. From animal enclosures, to sheds, portable buildings, outhouses and cupboards, SecuroShield offers a versatile security solution for almost any vulnerable opening or as an effective method of access control.

Choice

- ✓ LPCB approved and SBD products available
- ✓ Manual or electric operation
- ✓ Local expert advise for the right product
- ✓ Full choice of colours and finishes

Secured by Design

Secured by Design is the official UK Police flagship initiative supporting the principles of 'designing out crime' by use of effective crime prevention and security standards for a wide range of products and applications.

Only products which have been tested and meet the required technical standard can be awarded the Police Preferred Specification.

For more information on this initiative refer to:

www.securedbydesign.com

Insurance Approved Security

The rigorous LPS 1175 burglary resistance standard is operated by the Loss Prevention Certification Board (LPCB). LPCB are the UK's leading independent certification body and the LPS 1175 standard is recognised and endorsed by 16 organisations including the Association of British Insurers and the Association of Chief Police Officers.

For more information on the scheme refer to:

www.brecertification.co.uk

SeceuroShield Physical Security

Secure as standard.

The SeceuroShield range of security shutters and gates has been developed to provide an architecturally acceptable answer to the growing need for vandalism and burglary protection on domestic and commercial properties.

Investing in SeceuroShield means you are investing in:

- ✓ UK designed, manufactured and assembled products
- ✓ A name you can trust with all products CE or UKCA marked and compliant with the latest product directives
- ✓ A selection of products tested to LPCB Level 1
- ✓ A wide choice of high quality colour and finishes
- ✓ A choice of operating functions - both manual and electric
- ✓ Approved local distributors offering onsite expertise and installation
- ✓ Peace-of-mind warranties

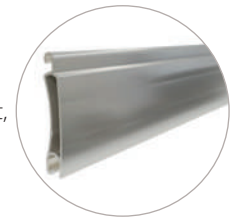

SeceuroShield | 3801 Insurance Approved Security Shutters

Insurance approved security shutters tested to Loss Prevention Standard 1175 (LPS 1175).

Unlike other certified shutters, SeceuroShield 3801 (tested and approved to LPS 1175) uses a 38 mm double-walled extruded aluminium slat, which coils very tightly into a range of compact boxes, minimising their visual impact. This is often a requirement for commercial and domestic installations where aesthetic considerations are paramount. Can be powder coated to reflect corporate colours.

- **Versatile** – Fits internally or externally in either the window reveal or around the opening
- **High quality finish** – Optional colours available
- **Secure** – Locking is provided automatically from the motor and manually operated bottom rail key locks or bullet locks
- **Compact** – Housings from 165 mm-250 mm dependent on shutter height
- **Ease of use** – SeceuroDrive or Somfy tubular motors and control systems provide electric operation as standard (ask for details on motor control options)

Choose me if:

- ✓ You are looking for security without compromise
- ✓ You require electrically operated security shutters
- ✓ You are looking for an attractive solution which can be blended in to the look of your home or business
- ✓ The overall width is not greater than 3000 mm

SeceuroShield | 38 Extruded Aluminium Security Shutters

Our best-selling security shutter; slimline yet strong and flexible enough for a wide range of applications.

Popular across residential, retail and commercial environments, SeceuroShield 38 offers a combination of security, practicality and modern design. Manufactured using twin-walled aluminium laths, this best-selling shutter provides dependable protection against intrusion while maintaining a compact and discreet appearance.

Features a slim shutter box and compact guide channels, making it ideal for shopfronts, kiosks, reception counters, bars, serveries and domestic door or window openings. Its clean, streamlined finish integrates seamlessly into both contemporary and traditional spaces without compromising on performance.

THIS PRODUCT CAN BE
POWDER COATED

- Strong double skin extruded aluminium curtain profile
- Medium security applications
- Spans widths up to 4000 mm
- Can be powder coated in special colours
- Can be mixed with SeceuroVision 38 for partial vision
- Can be fitted both internally and externally
- Electric operation available with smart group and individual control
- Available with manual belt operation, rod crank or spring & lock

Choose me if:

- ✓ You want to blend your security solution into your surroundings
- ✓ You have a medium security application
- ✓ You need a compact shutter box and slimline guides
- ✓ You want to choose between manual and electric operation
- ✓ You want wireless control of multiple shutters at once

SeceuroShield | 150 Lightweight Insulated Security Shutters

Light-weight foam-filled shutters with a vented slat option.

SeceuroShield 150 combines sleek aesthetics with dependable everyday security, making it an ideal choice for low to medium security applications. Its slimline design makes it ideal for domestic properties, kiosks, bars, serveries and retail openings.

The insulated aluminium curtain profile delivers effective thermal and acoustic insulation while maintaining a lightweight design. A vented slat option allows airflow while maintaining privacy and security.

- CFC-free foam filled rolled aluminium curtain profile
- Low to medium security applications
- Spans widths up to 3400 mm
- Effective heat and sound insulation
- Lightweight design, ideal for manual operation
- Vented slat option
- Flexible shading, light control and blackout
- Electric operation available with wireless control and smart hub compatibility
- Available with manual belt operation, rod crank or spring and lock

Choose me if:

- ✓ You are looking for a compact and attractive security solution
- ✓ You require shade and ventilation as well as security for your home or office
- ✓ You need your security to offer insulation and sound proofing
- ✓ The overall width is not greater than 3400 mm

SeceuroVision | 900 Vision Shutters

The new generation of vision shutter – very tight coiling and alternating link patterns give outstanding light transmission.

Maximum Vision

- Internal use
- Extruded aluminium with compact coil diameter
- Delivers up to 69% vision
- Medium security for retail / office / commercial applications
- Span widths up to 5000 mm
- Can be powder coated special colours
- 150 mm or optional 75 mm vertical link spacing
- Solid slats can be added to further enhance security
- Electric operation or manual spring & lock

Choose me if:

- ✓ You require a shutter that offers maximum vision whilst in use
- ✓ You want an attractive alternative to traditional shutters
- ✓ The overall width is not greater than 5000 mm

SeceuroVision | 800 Vision Shutters

Strong but stylish security with excellent through-vision and optional polycarbonate glazing.

High Level of Vision

- Internal or external use
- Strong extruded aluminium profile
- Delivers up to 62% vision
- Available in-line or brickbond
- Medium security retail / office / commercial applications
- Spans widths up to 6000 mm
- Can be powder coated special colours
- Can be mixed with solid profiles where higher security or only partial vision is required
- Electric operation or manual spring & lock

Choose me if:

- ✓ You require a shutter that offers maximum vision and protection from wind and rain
- ✓ You want a shutter that can be mixed with solid slats

SeceuroVision | 38 Vision Shutters

Our best-selling vision shutter, available with punched or perforated slats to give up to 45% vision.

Punched or Perforated

This compact vision shutter delivers an effective combination of security, airflow and visibility within a sleek, space-saving design. Manufactured using precision-engineered punched or perforated aluminium laths, the shutter offers up to 45% vision, allowing natural light and product visibility while still providing a strong and reliable security barrier.

Ideal for retail shopfronts, commercial counters, bars, kiosks and internal serveries, SeceuroVision 38 protects openings without compromising presentation or ventilation. Its modern appearance and compact operation make it a practical and stylish solution for environments where both security and visibility are essential.

- Strong extruded aluminium profile
- Delivers up to 45% vision (punched) / 17% vision (perforated)
- Optional polycarbonate glazing
- Medium security office / commercial / retail applications
- Spans widths up to 3000 mm
- Available as in-line or brickbond pattern
- Can be powder coated special colours
- Can be mixed with SeceuroShield 38 where partial vision is required
- Very compact shutter box

Choose me if:

- ✓ You require security without sacrificing visibility or ventilation
- ✓ You want to maintain product display visibility after hours
- ✓ You want your shutter to integrate into its surroundings as seamlessly as possible

SeceuroGuard | 1000 Retractable Security Gates

The original retractable security gate.

Elegant good looks with a heart of steel – the SeceuroGuard retractable security gate system combines a classic appearance with a high level of protection, ideal for your home or workplace.

Designed to keep intruders out while letting maximum light in, they are perfect for vulnerable ground floor windows on doors, for domestic, retail or commercial premises.

When not in use these retractable gates are surprisingly unobtrusive. Fitted to the door or window surround, they can disappear neatly behind curtains and a pelmet can be used to conceal the top track.

SeceuroGuard retractable gates are exceptionally safe and easy to handle with a smooth, quiet operation. They hang from a top track with a guide track at the base which can be supplied as an optional extra to quickly fold away when not required.

- Exceptionally strong security barrier
- Galvanised for corrosion resistance and powder coated
- Stylish 'X' or 'S' lattice design
- Fully retractable system
- Excellent through-vision when locked
- Multi-point locking from a single key
- Smooth running carrier system
- Quick and easy to use
- Can be fitted with a locking post at both ends to provide maximum flexibility of operation
- Where access is not required, a fixed sash option is available
- An unlimited width can be accommodated in sections

Ideal for:

- ✓ Fitting in front of or behind glass
- ✓ Retail shopfronts
- ✓ Offices and commercial premises
- ✓ Domestic properties
- ✓ Where a lower cost manual option is required

SeceuroGuard | 1001

Insurance Approved Retractable Security Gates

High security tested to Loss Prevention Standard 1175 (LPS 1175).

The SeceuroGuard retractable gate system combines a classic appearance with advanced protection, ideal for the home or workplace. The higher security 1001 is tested and approved to LPS 1175. The system can be easily fitted to the face or reveal of a window or door aperture and can be specified in a single or double-sash configuration. Where a clear walk through is required SeceuroGuard's bottom track can, as an optional extra, be made to fold up.

- **Versatile** – Fits internally in either the window reveal or around the opening in either single or double-sash configuration
- **Ease of use** – Smooth top running operation with an optional extra of a fold up bottom track to leave doorways unobstructed
- **Secure** – Multi-point locking operating from a single key
- **High quality finish** – Supplied in high quality white powder coated finish as standard

Reasons to Choose SeceuroShield

✓ A name you can trust

When buying a SeceuroShield product you can be reassured by the values behind the name. Every SeceuroShield shutter or gate is CE marked and SWS UK is an ISO 9001:2008 assessed company.

✓ Expert advice

With a local expert on hand you can be confident in choosing a product that suits your needs and provides a seamless finish to your property.

✓ Manufactured in the UK

Using the latest machinery and equipment, all SeceuroShield security products are proudly manufactured and assembled in the UK.

✓ A solution for everyone

With so much choice, SeceuroShield security products can accommodate almost any requirement. Whether you need extruded or insulated, solid or vision or electric or manual operation.

✓ Engineered to perfection

Through continuous development and specialist engineering, SeceuroShield security products offer unrivalled quality and the most advanced specifications.

The importance of conformity and CE and UKCA marking

To comply with the Machinery Directive both the shutter and the motor and controller used in the installation must have a **Declaration of Incorporation** from the manufacturer.

On completion of the installation the installer must provide a **Declaration of Conformity** and apply a CE or UKCA mark giving details of the installation to the shutter / motor and controller combination, which is now classed as a machine.

The installer must issue to the customer a Declaration of Conformity, maintenance and operation instructions on the completion of the installation.

The installer must hold copies of both the Declaration of Incorporation and the Declaration of Conformity on a technical file for inspection by the relevant authorities.

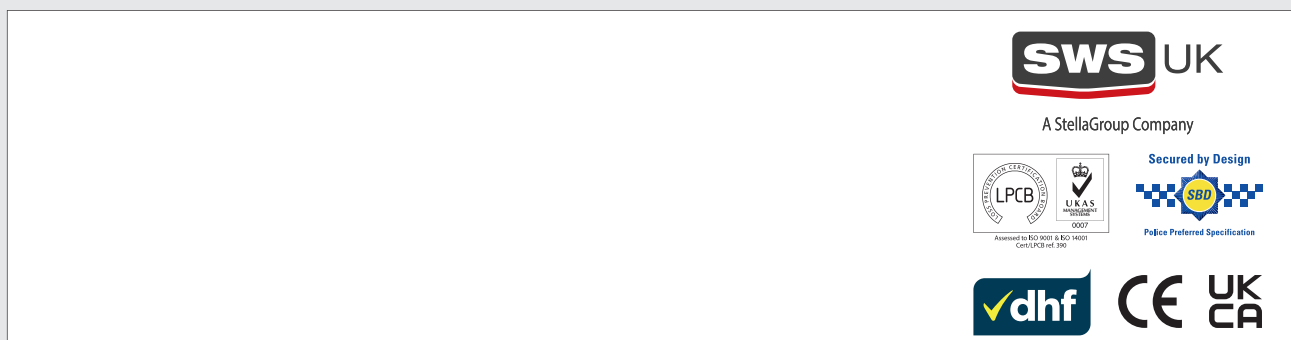

If any of the above requirements are not fulfilled the Installation is illegal.

Please ensure for your own safety and peace of mind that whoever installs your electric motor and controller is both willing and able to fulfil these requirements; if they are not – do not use them.

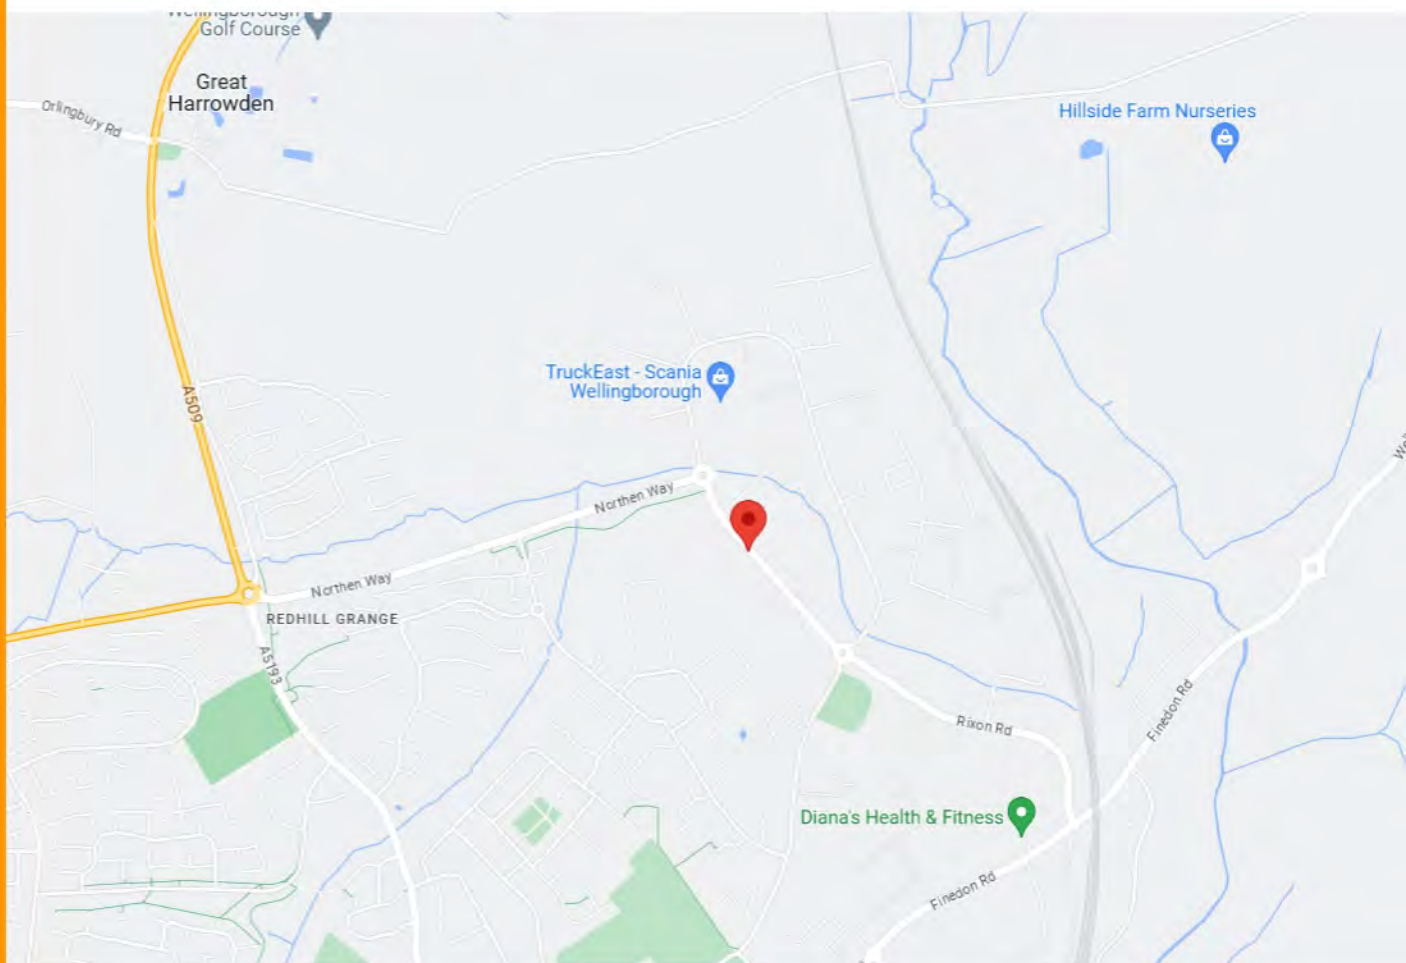

As a member of the DHF we CAN and WILL install your motor and controller safely and legally.

Peace-of-Mind Warranties

All SeceuroShield products are guaranteed against defect of material or workmanship by SWS UK, subject to correct installation, maintenance and operation, for a period of 2 years from the date of purchase. SeceuroDrive and Somfy motors carry a 5 year guarantee.
