

Canvas

Canopies are woven from a highly durable Teflon coated solution dyed polyester. All pockets are reinforced with heavy duty PVC, which helps make the canopy long lasting and durable. A large air vent is designed to provide additional stability in windy conditions. The canopies feature an anti-fade warranty of up to three years. A large range of colours are available for Tradewinds Parasols to match your requirements and branding possibilities. Canopies are easily removable and washable to maintain the look of the parasols. Replacement canopies are readily available.

Colour options

STANDARD COLOURS (IN STOCK)							
	ECRU	BLACK	GREEN	NAVY	TAUPE

* Note: colours shown here offer only an approximation of their actual real-life counterparts, as the screen and print settings on different computers cannot accurately reproduce some colour values.

Frames

Tradewinds Aluzone parasol frames feature aluminium poles and struts, supported by hand-crafted wooden hubs. They are assembled with stainless steel brackets and bolts to allow for the easy installation of new component parts, should there be any breakages or damage at any stage throughout the parasol's lifespan.

Optional extras

- Heavy duty cover bags for protection when parasols are closed.
- Bases in concrete, granite and steel.
- Stainless steel in-ground bases.
- Corporate branding on request.
